

## USING LIVE QUARANTINE

### SETTING UP YOUR ACCOUNT:

Click on “Need to activate your account?”

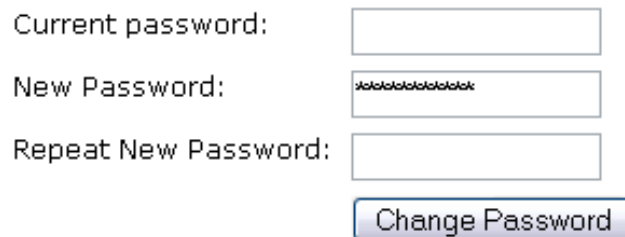

The screenshot shows a login form titled "LOG IN". It contains two input fields: "Email address:" and "Password:". To the right of the "Email address:" field is a checkbox labeled "Remember Me". To the right of the "Password:" field is a blue link labeled "Forgot your password?". Below the input fields is a "Login" button. At the bottom left of the form is a blue link labeled "Need to activate your account?".

Enter your email address in the field provided, and click “Activate”. You will then be sent two separate emails.

The first will be an address verification email. Click the link, and you will be directed to the Live Quarantine login screen. Enter your email address in the field provided.

Your password is contained in the second email. Enter it in the space provided. The next screen will allow you to change your password to whatever you want it to be.

The screenshot shows a "Change Password" form. It has three input fields: "Current password:", "New Password:", and "Repeat New Password:". The "New Password:" field contains a series of asterisks. Below the input fields is a "Change Password" button.

Enter your temporary password, and then a password you choose. Repeat your new password, and click “Change Password”. In the next screen, you will be able to set your preferences.

### PREFERENCES:

Click on the “Preferences” tab in the upper right hand corner of the page

Here, you can set up email aliases, control your quarantine email options, and set up an RSS feed for your quarantine.

You will be sent an address verification email for all aliases you set up on Live Quarantine. Click on the link in the email to activate the quarantine for your alias(es).

**QUARANTINE:**

At the login screen, enter your email address and password in the provided fields:

**LOG IN**

Email address:   Remember Me

Password:  [Forgot your password?](#)

[Need to activate your account?](#)

In the next screen, you will see your quarantine for all of your email addresses:

Quarantined spam for [\[email address\]](#)  
[logout](#) | [change password](#) | [outlook add-m](#)

**Quarantine** **Preferences**

Filter by address: **All addresses**

If you want to see the quarantine for a specific address, click the arrow on the right side of the drop down box, and select the address from the list.

To see a specific message, click on the subject line and the message will open in a separate window. At the bottom of the window are the options for the specific message:  
Deliver | Deliver & Report | Delete

If the spam is something you would like to save for later viewing, click “Deliver” and the spam will be delivered to your email inbox.

If the message was falsely identified as spam, “Deliver & Report” will deliver the message to your inbox, and report to us that the message was not spam.

To simply eliminate the message from your quarantine, click “Delete”.

All of these actions can be taken on multiple messages by checking the box(es) on the left side of the message(s), clicking on the drop down box at the bottom of the quarantine view screen, and then selecting the action from the drop down menu. Click “GO” to carry out the action.
